C-PEN™

READER 2™

Enable independent reading with award-winning assistive technology

The C-Pen Reader 2™ features AI that scans and reads a wider range of fonts. This assistive reading tool is designed to scaffold reading independence. The onboard dictionary gives rapid access to new vocabulary with syllable by syllable speech sound modelling giving access to learning and decoding at the point of need.

Better, clearer reader & new interface

Updated set of dictionaries

New AI text recognition

FREE TRIALS AVAILABLE!

Reading unlocks potential. From pre-school to the workplace, the challenge of reading can be supported. Individuals with neurodiverse differences or difficulties with literacy can succeed with reading.

Taking on these unique challenges is part of creating a more neuro-inclusive future for all of us. The C-Pen Reader 2™ is an assistive reading tool designed to put users in control of tasks, featuring high-speed AI-based text recognition, dictionary support and a syllable-by-syllable breakdown tool to foster reading skill development as it supports- wherever and whenever it's needed.

What the C-Pen Reader 2™ can do for you...

Higher speed reading for improved productivity

Save text to file in reader mode

Audio boost for better hearing

Dictionary definitions with syllable-by-syllable pronunciation support

Easily accessible word definitions

Improved voice recording quality - louder and clearer

OTHER AWARD-WINNING SUPPORT AND READING DEVICES
